Data Science Tools and Ecosystem

In this notebook, Data Science Tools and Ecosystem are summarized.

Some of the popular languages that Data Scientists use are:

1. python
2. R
3. Github
4. ipython

Some of the commonly used libraries used by Data Scientists include:

1. pandas
2. tensorflow
3. sci-kit

Data Science Tools and Ecosystem

In this notebook, Data Science Tools and Ecosystem are summarized.

objective:

- List popular languages for Data Science.
- Data Science Tools and Ecosystem
- In this notebook, Data Science Tools and Ecosystem are summarized.
- This is a simple arithmetic expression to multiply then add integers.
- Insert a comment line before the expression to explain the operation

Some of the popular languages that Data Scientists use are:

1. python
2. R
3. Github
4. ipython

Some of the commonly used libraries used by Data Scientists include:

1. pandas

- 3. Github
- 4. ipython

Some of the commonly used libraries used by Data Scientists include:

- 1. pandas
- 2. tensorflow
- 3. sci-kit

Below are a few examples of evaluating arithmetic expressions in Python.

```
[1]: #This a simple arithmetic expression to mutiply then add integers.  
x = (3*4)+5  
print(x)
```

17

```
[2]: #This will convert 200 minutes to hours by diving by 60  
y = 200/60  
print(y)
```
